MEMORANDUM

To: CMAP Board and MPO Policy Committee

From: CMAP Staff

Date: October 5, 2011

Re: Federal Fiscal Year (FFY) 2012-2016 Congestion Mitigation and Air Quality Improvement (CMAQ) Multi-Year Proposed Program and Multi-Year B (MYB) List

The CMAQ program provides federal funds to air quality non-attainment areas for transportation projects that mitigate congestion or improve air quality. Northeastern Illinois has been and continues to be an air quality non-attainment area, so the region has received and programmed \$1.34 billion dollars in CMAQ funds since the program began in 1992.

CMAP is completing a call for projects for the CMAQ Program. During this year's cycle, CMAP staff evaluated 371 applications requesting over \$933 million in federal funds. The proposed program commits \$411 million between 2012 and 2016 for 155 projects. To complete the process, the committee also identified 45 projects for a MYB list. Inclusion in the MYB list means that a project sponsor may ask the CMAQ Project Selection Committee to add the project to the funded program prior to the next application cycle if the project demonstrates significant progress and there is insufficient movement of CMAQ programmed projects. The already programmed CMAQ projects and projects included in this latest round must be first priority for all sponsors.

Instrumental in the development of the FFY 2012-2016 proposed program were the recommendations of the four GO TO 2040 Program Focus Groups. The [GO TO 2040 Focused Programming Approach for the CMAQ Program](#) was approved by the MPO Policy Committee at their January 2011 meeting. The focused programming approach combined with the CMAQ active program management policies ensure a program that provides continued air quality and congestion relief benefits, encourages prompt implementation of projects and helps advance the region toward the vision set out in GO TO 2040.

The recommendations of the four focus groups were presented to the Project Selection Committee at their July 7, 2011 meeting. The focus programming approach did not replace the technical air quality and congestion benefits analysis but instead worked with it to ensure a program that provides those benefits and helps advance the region towards the vision set out in

GO TO 2040. Any project not included in the proposed program that had air quality benefits and was recommended by the program focus groups was included on the MYB list.

The proposed program and MYB list were released for a 30 day public review and comment period. The Transportation Committee has concurred in the staff responses to public comments (see [Summary of Comments Received and Staff Response](#)) and recommends the attached proposed FFY 2012-2016 CMAQ Program and the MYB list for your consideration.

Sponsors of funded projects will attend a mandatory initiation meeting on November 14, 2011. This meeting will explain CMAP's CMAQ programming policies and the federal process for implementing CMAQ projects, with the aim of ensuring timely project completion.

FFY 2012-2016 CMAQ Proposed Program by Project Type

ACTION REQUESTED: Recommend approval

###
